MEDIOBANCA - BANCA DI CREDITO FINANZIARIO S.p.A.

This supplement (the "**Supplement**") is supplemental to, forms part of and must be read and construed in conjunction with, the base prospectus dated 30 December 2022 (the "**Base Prospectus**") prepared by Mediobanca - Banca di Credito Finanziario S.p.A. ("**Mediobanca**") and Mediobanca International (Luxembourg) S.A. ("**Mediobanca International**") (each an "**Issuer**" and together the "**Issuers**") in connection with the Euro Medium Term Note Programme (the "**Programme**") for the issuance of up to EUR 40,000,000,000 in aggregate principal amount of notes ("**Notes**"). Terms given a defined meaning in the Base Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Supplement.

The purpose of the publication of this Supplement is to update certain information contained in the Base Prospectus, in particular:

- (i) the section "General Description of the Euro 40,000,000,000 Euro Medium Term Note Programme";
- (ii) the section "Risk Factors";
- (iii) the section "Documents Incorporated by Reference" to incorporate by reference, inter alia, the audited consolidated annual financial statement of Mediobanca and the audited non-consolidated annual financial statements of Mediobanca International as at and for the year ended on 30 June 2023;
- (iv) the section "Information on Mediobanca - Banca di Credito Finanziario S.p.A.";
- (v) the section "Financial Information of Mediobanca - Banca di Credito Finanziario S.p.A.";
- (vi) the section "Information on Mediobanca International (Luxembourg) S.A.";
- (vii) the section "Financial Information of Mediobanca International (Luxembourg) S.A.";
- (viii) the section "General Information"; and
- (ix) the "football team" in the final page of the Base Prospectus.

This Supplement has been approved by the Central Bank of Ireland (the "**Central Bank**"), as competent authority in Ireland for the purpose of Regulation (EU) 2017/1129, as amended (the "**Prospectus Regulation**"). The Central Bank only approves this Supplement as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuers or of the quality of the Notes that are the subject of the Base Prospectus (as supplemented by this Supplement). Investors should make their own assessment as to the suitability of investing in the Notes that are the subject of the Base Prospectus (as supplemented by this Supplement).

In accordance with Article 23 paragraph 2 of the Prospectus Regulation, retail investors who have already agreed to purchase or subscribe for the Notes before this Supplement is published have the right, exercisable within by no later than two working days after the publication of this Supplement, to withdraw their acceptances. Accordingly, the final date for exercising the withdrawal right is 10 November 2023. Retail investors who decide to exercise their right of withdrawal may do so by notifying the banks and financial entities that have agreed to place the Notes and that are identified in the final terms of the Notes. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU, (as amended or superseded, the "**Insurance Distribution Directive**"), where that customer would not

qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation.

Copies of this Supplement are available on the website of the Irish Stock Exchange plc trading as Euronext Dublin ("**Euronext Dublin**") (<https://live.euronext.com/>) and copies of this Supplement and the documents incorporated by reference in this Supplement can be obtained, without charge, at the specified office of the Fiscal Agent in Luxembourg (as per page 298 of the Base Prospectus) and are available on the websites of Mediobanca (www.mediobanca.com) and Mediobanca International (www.mediobancainst.lu) as applicable.

Each of the Issuers and the Guarantor accepts responsibility for the information contained in this Supplement and, to the best of the knowledge of each of the Issuers and the Guarantor (which have taken all reasonable care to ensure that such is the case), the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

To the extent that there is any inconsistency between: (a) any statement in this Supplement or any statement incorporated by reference into the Base Prospectus by this Supplement; and (b) any other statement in, or incorporated by reference into, the Base Prospectus, the statements in (a) above will prevail.

The language of this Supplement is English. Any foreign language text that is included with or within this Supplement has been included for convenience purposes only and does not form part of this Supplement.

Save as disclosed in this Supplement, no significant new fact, material mistake or inaccuracy relating to the information included in the Base Prospectus which is capable of affecting the assessment of the Notes issued under the Programme has arisen or been noted, as the case may be, since publication of the Base Prospectus.

This Supplement may only be used for the purposes for which it has been published.

The date of this Supplement is 8 November 2023.

**AMENDMENTS TO THE SECTION “GENERAL DESCRIPTION OF THE EURO 40,000,000,000
EURO MEDIUM TERM NOTE PROGRAMME”**

- (a) Item “*Mediobanca - Banca di Credito Finanziario S.p.A.*” under section “*General Description of the Euro 40,000,000,000 Euro Medium Term Note Programme*” on page 10 of the Base Prospectus shall be amended by replacing the fifth paragraph as follows:

“As at 30 June 2023, Mediobanca’s issued share capital totals Euro 444,169,467.5 represented by 849,257,474 registered shares.”

- (b) Item “*Mediobanca International (Luxembourg) S.A.*” under section “*General Description of the Euro 40,000,000,000 Euro Medium Term Note Programme*” on pages 9-10 of the Base Prospectus shall be amended by replacing the third paragraph as follows:

“As at 30 June 2023, Mediobanca International’s issued and authorised fully paid share capital totals Euro 10,000,000 represented by 1,000,000 registered shares of Euro 10 par value.”

AMENDMENTS TO THE SECTION “RISK FACTORS”

- (a) Risk factor headed “*Systemic risks related to the economic/financial crisis, the impact of the current uncertainties in the macroeconomic scenario, and deriving from the Covid-19 pandemic and Russia/Ukraine conflict*” of sub-section “*Risks related to the business of the Issuer and the Mediobanca Group and to the sector in which they operate*” under section “*Risk Factors*” on pages 21-22 of the Base Prospectus shall be updated in its entirety and replaced as follows:

“Systemic risks related to the economic/financial crisis, the impact of the current uncertainties in the macroeconomic scenario, the aftermath of the Covid-19 pandemic and the continuation of the Russian-Ukrainian conflict

The operations, earnings capacity and the stability of the sector of both the Issuers and the Mediobanca Group may be influenced by its/their credit standing, the general economic situation of Italy and the entire Eurozone, trends on financial markets and the economic, social and financial consequences generated by the Covid-19 pandemic and the Russia/Ukraine conflict. With reference to financial markets, the solidity, resilience and growth prospects of the economies of the countries in which the Issuers operate in particular will be especially important.

The macroeconomic scenario is currently marked by considerable uncertainty in relation to: (a) the Russian-Ukrainian conflict and recent developments in the Israeli-Palestinian conflict; (b) the long-term consequences of the health crisis due to the Covid-19 pandemic; and (c) the recent crisis in the international banking system, combined with restrictions imposed by jurisdictions to reduce persistent inflationary pressures, which have led to a slowdown in global growth.

In relation to point (a) above, the persistence of uncertainties linked to the Russian-Ukrainian conflict continue to generate strong tensions on the energy and commodities markets. The Eurozone Harmonized Index of Consumer Prices rose from 8.6% year-over-year (“**YoY**”) in June 2022 to 9.2% YoY in December 2022 and then fell to 5.5% YoY in June 2023. The underlying inflation trend was increasing in the first half of the year and substantially stable around 5.5% YoY in the second. GDP growth during the financial year showed little robust dynamics; therefore, the growth prospects for Europe remain linked to the economic consequences of the Russian-Ukrainian conflict and the dynamics of Chinese growth. In this last regard, it should be noted that the structural reforms imposed by the Chinese government on the economy have weighed on growth and indirectly frustrated European exports.

In September 2022 the three European Supervisory Authorities (EBA, EIOPA and ESMA - so-called ESAs) published a joint report on the risks of autumn 2022 (Joint Committee - Autumn 2022 Report on Risks and Vulnerabilities). The report highlights how the Russian-Ukrainian conflict, combined with pre-existing inflationary pressures, has caused a sharp increase in energy and commodities prices, thus weakening the purchasing power of families and increasing the risk of stagflation. Accordingly, the Joint Committee of the ESAs advises the competent national authorities, financial institutions and market operators to take appropriate measures to limit the negative effects of such circumstances.

With reference to the Israeli-Palestinian conflict, the continuation and/or worsening of the crisis between the Palestinian and Israeli governments could lead to the emergence of a further profile of uncertainty with possible macroeconomic and market consequences.

In relation to point (b) above, in the 2022/2023 financial year, global economic growth was influenced by the Chinese government's decision to abandon the zero-tolerance policy towards Covid infections. China's decision in the latter part of the first half of the year reversed the global economy's loss of momentum and helped restore its momentum. The adoption of a zero-tolerance policy like the one adopted by the Chinese government in the past, which imposes a total absence of tolerance towards Covid infections, could have a further impact on the Italian economic, social and financial situation and therefore, as a consequence, on the credit quality, capitalization and profitability of Mediobanca, which

operates mainly on the Italian market. It should be noted that as of 30 June 2023, adjustments to loans were equal to €270.1 million (compared to €242.6 million as of 30 June 2022) and that the Group's cost of risk was equal to 52bps (compared to 48bps as of 30 June 2022). It should also be noted that as of 30 June 2023 the additional provisions so-called overlay equal to approximately €268.5 million have been preserved. These provisions were made with the aim of including the uncertainties of the evolution of the macroeconomic context in the coverage levels. Unlike the last financial year, which was characterized by the effects of the continuation of the Covid 19 pandemic, in the financial year to 30 June 2023 the overlays were applied in the Corporate (including Factoring and Leasing) on sectors particularly exposed to inflationary pressure in order to enhance any risk peaks in relation to industrial sectors that the quantitative methodology captures only on average. Finally, on Consumer and mortgage loan positions, the overlays were maintained to cover the uncertainties of the macroeconomic framework, in line with the last financial year.

In relation to point (c) above, in the last part of the financial year, the combination of the turbulence in the US and Swiss banking sectors and the emergence of the economic effects of monetary restrictions led to a slowdown in the growth of economic activity and a de-synchronization of economic cycles between the economic areas of North America, the European continent and the Far East. To deal with the increase in prices due to inflationary pressures, the Central Banks (in particular the Federal Reserve and the ECB) have resorted to restrictive monetary policies; despite this, inflation in both the United States and the European Union remained well above monetary policy objectives. This has generated volatility on the markets due to the lack of a certain horizon for the end of restrictive policies and also the fear of a recession, given the high cost of money. In this context, the peak of volatility was recorded in March 2023, when news on the state of the accounts of Silicon Valley Bank (SVB) and its subsequent default raised fears about the stability of the banking sector, both in the USA and in Europe. In the following weeks, these fears transferred to Credit Suisse, considered the most fragile global financial institution, which were then resolved with the intervention of public institutions which forced its acquisition by UBS.

Hence, as of 30 June 2023, the ongoing downward trend in the growth estimates for macroeconomic indicators, such as inflation, employment and private consumption indicators, coupled with the increase in volatility on financial markets, risks creating adverse repercussions on the earnings, capital and financial situation of the Issuer and/or on the Group.”

- (b) Risk factor headed “*Credit and counterparty risk*” of sub-section “*Risks related to the business of the Issuer and the Mediobanca Group and to the sector in which they operate*” under section “*Risk Factors*” on pages 22-23 of the Base Prospectus shall be updated in its entirety and replaced as follows:

“*Credit and counterparty risk*”

The business activities of both Mediobanca and the Group and their earnings and financial solidity depend also on the credit standing of their respective clients and counterparties.

Mediobanca is exposed to the risks traditionally associated with credit activity. Accordingly, breach by its customers of contracts entered into and their own obligations, or the possible failure to provide information or the provisions of incorrect information by them regarding their respective financial and credit situation, could impact negatively on the earnings, capital and/or financial situation of Mediobanca.

The Group’s portfolio has no material direct exposures versus the Russian Federation, Ukraine or Belarus.

As at 30 June 2023, the Mediobanca Group had a gross NPL ratio (i.e. gross non-performing loans as a percentage of gross total customer loans) of 2.5%, compared with 2.6% for the same ratio as at 30 June 2022.

As at 30 June 2023, gross non-performing loans totalled €1,339.7 million (almost unchanged compared to €1,327.3 million as at 30 June 2022), and represent 2.5% of total loans.

The Consumer division has shown low default rates (around 20% lower compared to pre-Covid levels), despite the introduction of stricter rules on the classification of forbearance, UTP and the definition of default; on the other hand, a Large Corporate position in Corporate and Investment Banking becomes an UTP. The prudent provisioning policy has continued (the coverage ratio has risen from 71% to 72.1%), which is reflected in the reduction in net impaired assets (from €384.4 million to €374.3 million, of which €41.3 million is represented by NPLs), and now represent under 1% of total loans, slightly higher than last year (0.7%). Non-performing loans do not include the NPLs acquired by the Group, which during the financial year 2022-2023 decreased from €360.2 million to €242.3 million, and which are however expected to be excluded from the Group's perimeter with the sale of Revalea to Banca Ifis (closing expected by the end of 2023).

With regard to loan concentration, as at 30 June 2023, gross aggregate exposures (including equity investments and those deriving from market risks) exceeding 10% of the CET1 regulatory capital (c.d. "*Patrimonio di Vigilanza di Classe I*") concerned eight groups of connected customers (one more than last financial year) and totalled €9.4 billion (€7.1 billion, taking collateral and weightings into account), compared to €8.9 billion (€6.7 billion, taking collateral and weightings into account) as at 30 June 2022. The eight positions involve one industrial group, one insurance company, and six banking groups."

- (c) Risk factor headed "*Risks related to the 2019-23 Strategic Plan*" of sub-section "*Risks related to the business of the Issuer and the Mediobanca Group and to the sector in which they operate*" under section "*Risk Factors*" on page 23 of the Base Prospectus shall be updated in its entirety and replaced as follows:

"Risks related to the 2023-26 Strategic Plan

On 24 May 2023, Mediobanca's Board of Directors approved the guidelines for its 2023-26 Strategic Plan *One Brand – One Culture* (the "**Strategic Plan**"), including the so-called *Long Term Incentive Plan 23-26* that was submitted to the approval of shareholders gathered in the Annual General Meeting held on 28 October 2023. The Strategic Plan has identified a series of actions across all divisions to contribute to a more sustainable future in terms of reducing environmental impacts, attention to inclusion and diversity and community support.

The Strategic Plan contains certain targets to be reached (the "**Plan Objectives**") relating to Environmental, Social and Governance issues; including the intention to achieve carbon neutrality by 2050 (with approximately 35% reduction in the carbon intensity of financing by 2030, -18% by June 2026), the promotion of a corporate culture based on diversity and inclusion with over 30% of women among senior managers, over 20% among executives, 50% of the total hiring and equality in the advancement rate and the introduction of the so-called *Long Term Incentive Plan 23-26* to align the remuneration of Mediobanca's top management with the long-term performance underpinning the Strategic Plan.

As at 30 June 2023, the Issuers' capability to implement the actions and to meet the Plan Objectives depends on a number of circumstances, some of which are beyond the Issuers' control, including, but not limited to, the macroeconomic scenario, which could be compromised by the consequences deriving from the Russia/Ukraine conflict, the changes in the regulatory framework, and the effects of specific actions or concerning future events which the Issuers are only partially able to influence. Furthermore, there is no certainty that the actions provided for in the Strategic Plan will result in the benefits expected from implementation of the Plan Objectives; if such benefits fail to materialize, the results expected by Mediobanca may differ, even materially, from those envisaged in the Strategic Plan."

- (d) Risk factor headed “*Market risk*” of sub-section “*Risks related to the business of the Issuer and the Mediobanca Group and to the sector in which they operate*” under section “*Risk Factors*” on pages 23-24 of the Base Prospectus shall be updated in its entirety and replaced as follows:

“*Market risk*”

The Issuers are subject to market risk, defined as the risk of the loss of value of the financial instruments, including sovereign debt securities, held by the Issuers as a result of movements in market variables (including, but not limited to, interest rates, stock market prices and/or exchange rates) or other factors that could trigger a deterioration in the capital solidity of the Issuers and/or the Group. Mediobanca calculates the Value at Risk (“**VaR**”) on a daily basis. VaR is a measurement of the market risk associated with a financial asset, of the positions held in its trading book, assuming a disposal period of a single trading day and a confidence level of 99%. The other sensitivities (known as the “*Greeks*”) are measured in relation to risk factors such as interest rates, share prices, Exchange rates, credit spreads, inflation and volatility. Stress testing versus the main risk factors is also carried out, in order to pick up the impact which significant movements in the main market variables might have, and *ad hoc* indicators are implemented to capture risks not measured by VaR.

Such fluctuations may be caused by political, economic and market considerations, the availability and cost of capital, the level and volatility of share and bond prices, the price of commodities, interest rates, credit spreads, the value of currencies and other market indicators, innovations and developments in the field of technology, the availability and cost of credit, inflation, and investors’ perception of and confidence in financial markets.

The financial year ended at 30 June 2023 has been characterised by a persistent volatility across all asset classes, especially interest rates, due primarily to the macroeconomic context, which has been characterised by a high inflation rate for the principal Western economies.

Some breaches to the VaR and stop loss limits were recorded during the month of March 2023, corresponding to exceptional peaks in volatility on the interest rate market.

The aggregate value-at-risk on the trading book for the year ended on 30 June 2023 ranged from a low of €4.5 million in September 2022 to a high of €16.7 million recorded in mid-March 2023. The average reading of €8.4 million was 35% higher than the previous financial year’s average (€6.1 million). After the high recorded in mid-March 2023, the VaR figure dropped to €6.7 million, below the average of the financial year.”

- (e) Risk factor headed “*Operational risk*” of sub-section “*Risks related to the business of the Issuer and the Mediobanca Group and to the sector in which they operate*” under section “*Risk Factors*” on page 24 of the Base Prospectus shall be amended by replacing the last two paragraphs as follows:

“The operating losses recorded during the financial year account for approximately 1.2% of total income (compared to 0.4% as at 30 June 2022). The majority of the operating losses for the financial year were due to a fraud carried out from outside and connected to non-recurring events: the fraud was suffered by a customer in the context of payments connected to portfolio investments. Although no material losses were generated, there was an increase in certain instances (classes) of operational risk, such as IT & cyber risk and outsourcing risk.

Operational risk does not include compliance risk – identified by the Issuer as a relevant risk and included in the section on “*Other risks*” on p. 350 of the audited consolidated annual financial statements as at and for the year ended 30 June 2023, incorporated in this Base Prospectus by reference – strategic risk or reputational risk.”

- (f) Risk factor headed “*Liquidity risk*” of sub-section “*Risks related to the financial situation of the Issuers and of the Mediobanca Group*” under section “*Risk Factors*” on pages 25-26 of the Base Prospectus shall be amended by replacing the last three paragraphs as follows:

“The Liquidity Coverage Ratio (“**LCR**”) as at 30 June 2023 was equal to 179.5% (compared to 159% as at 30 June 2022), including the prudential estimate of “additional liquidity outflows for other products and services” in accordance with Article 23 of Commission Delegated Regulation (EU) 2015/61; i.e. higher than the minimum requirement of 100% set by the regulators as of 1 January 2018. The Net Stable Funding Ratio (“**NSFR**”) as at 30 June 2023 was equal to 119.3% (compared to 115.5% as at 30 June 2022); i.e. higher than the minimum requirement of 100% introduced starting from 2021.

The LCR and NSFR are liquidity indicators. The LCR serves to maintain a liquidity buffer that will enable the Issuers to survive for a period of thirty days in the event of exceptionally stressful circumstances, while the NSFR records structural liquidity, ensuring that assets and liabilities retain a sustainable structure in terms of maturities.

The Group’s participation in targeted longer-term refinancing operations (“**TLTROs**”) (*i.e.*, operations whereby credit institutions in the Eurozone can receive finance for up to 3 years on advantageous terms, in order to improve credit market conditions and stimulate the real economy) with the European Central Bank (the “**ECB**”) as at 30 June 2023 amounted to €5.6 billion (€8.4 billion as at 30 June 2022). The increase in the LCR compared to the average annual figure recorded last year allowed Mediobanca to repay approximately €3 billion TLTROs during the financial year.”

- (g) Risk factor headed “*Sovereign exposure risk*” of sub-section “*Risks related to the 2023-26 Strategic Plan*” under section “*Risk Factors*” on page 26 of the Base Prospectus shall be amended by replacing the second paragraph as follows:

“As at 30 June 2023, the aggregate exposure to sovereign states held by the Mediobanca Group amounted to €7 billion, of which €3.6 billion booked at fair value, and €3.4 billion at amortized cost, with €0.6 billion in securities held by other banks in the Mediobanca Group. On the same date, the aggregate exposure to Italian government securities was €5.21 billion, representing 31.2% of the Group’s total financial assets and 6% of the total assets (compared to 4% as at 30 June 2022). The average duration of the exposures was approximately two years. As at 30 June 2022, the same exposure reflected a book value of €4.4 billion (€1.14 billion recognized at fair value and €3.3 billion at amortized cost). The short duration of the securities portfolio together with the sudden rise in market rates allowed the Group to increase the portfolio yield by approximately 140 bps.”

- (h) Risk factor headed “*Risk related to court and arbitration proceedings*” of sub-section “*Risks related to the financial situation of the Issuers and of the Mediobanca Group*” under section “*Risk Factors*” on pages 26-27 of the Base Prospectus shall be amended by replacing the last paragraph as follows:

“It is believed that the provision for risks and charges (which as at 30 June 2023 amounted to €139 million), is sufficient to cover any charges relating to the actions that have been brought against Mediobanca and the other Group companies, mainly having tax nature, and to cover other contingent liabilities (as at 30 June 2022 the provision included €113.5 million for litigation and other contingent liabilities).”

- (i) Risk factor headed “*Risks related to major regulatory changes*” of sub-section “*Risks related to legal and regulatory scenario*” under section “*Risk Factors*” on pages 27-31 of the Base Prospectus shall be amended:

(A) by updating in their entirety and replacing the eighth, ninth and tenth paragraphs as follows:

“For the years 2022 and 2023, Mediobanca received a SREP Decision respectively on 24 January 2022 and on 14 December 2022. On 14 December 2022, Mediobanca received the following minimum requirements to comply with:

• Minimum requirement (CRR Article 92)	8.00%
- of which CET1	4.50%
- of which T1	6.00%
- of which Total capital	8.00%
• P2R (SREP Decision)	1.68%
- of which CET1	0.95%
- of which T1	1.26%
- of which Total capital	1.68%
• Capital conservation buffer (CRD IV)	2.50%
• Minimum total CET1 requirement	7.95%
• Minimum total Tier 1 requirement	9.76%
• Minimum total capital requirement	12.18%”

As at 30 June 2023 the risk-weighted assets (“**RWAs**”)¹ amounted to €51,431.5 million (increasing from the €50,378.0 million reported during the financial year 2021-2022), the CET1 and the Tier 2 totalled €8,177.6 million and €1,039.4 million, respectively (while as at 30 June 2022, the CET1 and the Tier 2 amounted to €7,894.3 million and €980.1 million, respectively); the CET1 ratio stood at 15.9% (versus 15.67% as at 30 June 2022) and the total capital ratio grew from 17.62% to 17.92% (17.21% fully loaded). In relation to the ratio fully loaded (and, therefore, the prudential treatment of Assicurazioni Generali investment), it has been applied, following the authorisation received from the European Central Bank, the temporary regime provided under article 471 of the CRR which allows to weight at 370% equity holdings in insurance undertakings which have not been deducted pursuant to paragraph 1 of such article (the so called “Danish Compromise”). Starting from 2025, with the entry into force of the regulation amending the current regime, the Danish Compromise should become permanent, so to allow to the institutions to weight at 370% their equity holdings in insurance undertakings in lieu of the deduction.

For the year 2024, no definitive communication has been received yet.”

(B) by updating in its entirety and replacing the twentieth paragraph as follows:

“The Mediobanca Group’s leverage ratio, calculated without excluding exposures to central banks, remains unchanged in respect of the previous financial year (8.4% as at 30 June 2022 and as at 30 June 2023).”

¹ RWAs are calculated using the standard and internal ratings based (“IRB”) methods for credit risk: the standard method for market risk, and the basic method for operational risks.

AMENDMENTS TO THE SECTION “DOCUMENTS INCORPORATED BY REFERENCE”

- (a) The list of documents at pages 54-55 of the Base Prospectus shall be amended by replacing the first two entries as follows:

“

- the English translation of the audited consolidated annual financial statements as at and for the years ended on 30 June 2023 and 2022 of Mediobanca;
- the audited non-consolidated annual financial statements as at and for the years ended 30 June 2023 and 2022 of Mediobanca International;”

- (b) The list of documents at pages 54-55 of the Base Prospectus shall be amended by inserting a new entry as follows:
