WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE ISSUER?

- The operations, earnings capacity and the stability of the sector of both the Issuer and the Mediobanca Group may be influenced by its credit standing, the general economic situation of the country of Italy and the entire Eurozone, trends on financial markets and the economic, social and financial consequences generated by the Covid-19 pandemic and the Russia/Ukraine conflict. With reference to financial markets, the solidity, resilience and growth prospects of the economies of the countries in which the Issuer operates in particular will be especially important. The macroeconomic scenario is currently marked by considerable uncertainty in relation to: (a) the crisis generated by the pandemic; (b) the slowdown in the rate of growth following the recession caused by the pandemic, aggravated by the increase in inflationary pressures; and (c) the Russia/Ukraine conflict, which has caused volatility on financial markets and driven a spiral of inflation, as described in more detail in the following sections. In relation to point (a) above, the spread of new variants or a return of the virus itself could impact further on the economic, social and financial situation of Italy and thus indirectly on the credit quality, capitalization and profitability of the Issuer which operates primarily on the Italian domestic market. As at 30 June 2022, loan loss provisions amounted to €242.6 million (compared to €248.8 million as at 30 June 2021), while the Group’s cost of risk stood at 48 bps (compared with the 52 bps as at 30 June 2021). In relation to point (c) above, the conflict in Ukraine has generated strong tensions on the energy and commodities markets, and in particular has driven sharp increases in the prices of gas, cereals and fertilizers. Although the Italian government has taken steps to find alternative energy suppliers in the Mediterranean basin and Africa, the country remains highly exposed due to its sizeable energy imports from Russia. In this scenario, the prospects for Italian growth continue to be strongly linked to developments in the Russia-Ukraine conflict and to the economic sanctions imposed on Russia in agreement with the allied countries. Hence, as at the date of the Base Prospectus, the ongoing downward trend in the growth estimates for macroeconomic indicators, such as inflation, employment and private consumption indicators, coupled with the increase in volatility on financial markets, risks creating adverse repercussions on the earnings, capital and financial situation of the Issuer and/or on the Group.
- The business activities of both Mediobanca and the Group and their earnings and financial solidity depend also on the credit standing of their respective clients and counterparties. Mediobanca is exposed to the risks traditionally associated with credit activity. Accordingly, breach by its customers of contracts entered into and their own obligations, or the possible failure to provide information or the provisions of incorrect information by them regarding their respective financial and credit situation, could impact negatively on the earnings, capital and/or financial situation of Mediobanca.
- As at the date of the Base Prospectus, the Issuers’ capability to implement the actions and to meet the targets to be reached by end June 2023 (the “**Plan Objectives**”) contained in its 2019-23 Strategic Plan depends on a number of circumstances, some of which are beyond the Issuer’s control, including, but not limited to, the macroeconomic scenario, which could be compromised by the consequences deriving from the Covid-19 pandemic, the Russia/Ukraine conflict, the changes in the regulatory framework, and the effects of specific actions or concerning future events which the Issuer is only partially able to influence. However, there is no certainty that the actions provided for in the Issuer’s 2019-23 Strategic Plan will result in the benefits expected from implementation of the Plan Objectives; if such benefits fail to materialize, the results expected by the Mediobanca may differ, even materially, from those envisaged in the Strategic Plan.
- The Issuer is subject to market risk, defined as the risk of the loss of value of the financial instruments, including sovereign debt securities, held by the Issuer as a result of movements in market variables (including, but not limited, interest rates, stock market prices and/or exchange rates) or other factors that could trigger a deterioration in the capital solidity of the Issuer and/or the Group. The financial year ended at 30 June 2022 has been characterized by a generalized increase in volatility in all asset classes due primarily to the effects of the Covid-19 pandemic and to the Russia/Ukraine conflict.
- The Group is exposed to different types of operational risk. The event types most impacted by operational risk are originated by products sold to clients, commercial practices, the execution of operating processes, and frauds committed from outside the Group. Although the Mediobanca Group has adopted a system for recording, assessing and monitoring operational risks with a view to preventing and containing them, it should be noted that unpredictable events or events otherwise beyond the control of the Issuer could occur, which could impact negatively on the Issuer’s and the Group’s operating results, activities and earnings, capital and/or financial situation, as well as on their reputation.

In addition, Notes of one series may be consolidated with Notes of another Series.</p>

<p>Restrictions on free transferability The Notes may not be transferred prior to the Issue Date. Selling restrictions apply to offers, sales or transfers of the Notes under the applicable laws in various jurisdictions and, amongst others, the United States, the European Economic Area (including Italy), the United Kingdom, Japan and Switzerland.</p>

<p>Listing and Trading of Notes Application will be made by UniCredit Bank AG, acting through its Milan Branch for the Notes to be admitted to trading on the multilateral trading facility of EuroTLX which is not a regulated market for the purpose of Directive 2014/65/EU with effect from, or around, the Issue Date. UniCredit Bank AG, acting through its Milan Branch will also act as liquidity provider with reference to the Notes traded on EuroTLX.</p>
<p>WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE NOTES?</p>
<p>General</p> <ul style="list-style-type: none"> • A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor’s overall investment portfolio. <p>Risk related to the structure of a particular Issue of Notes</p> <ul style="list-style-type: none"> • In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction, the Issuer may redeem all outstanding Notes in accordance with the Terms and Conditions of the Italian Law Notes. • The Notes may be redeemed at the option of the Issuer, in whole, but not in part, upon the occurrence of a MREL Disqualification Event. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. <p>Risks related to Notes generally</p> <ul style="list-style-type: none"> • “Euroclear Bank S.A./N.V. (“Euroclear”) and/or Clearstream Banking, S.A. (“Clearstream, Luxembourg”) will maintain records of the beneficial interests in the Global Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes. • The Issuer may, without the consent of Noteholders, correct (i) any manifest error in the Terms and Conditions of the Italian Law Notes and/or in the Final Terms; (ii) any error of a formal, minor or technical nature in the Terms and Conditions of the Italian Law Notes and/or in the Final Terms or (iii) any inconsistency in the Terms and Conditions of the Italian Law Notes and/or in the Final Terms between the Terms and Conditions of the Italian Law Notes and/or the Final Terms and any other documents prepared in connection with the issue and/or offer of a Series of Notes (provided such correction is not materially prejudicial to the holders of the relevant Series of Notes). In all cases described above, the Noteholders may be bound by any amendments, including those prejudicial to their interests, even if they had not provided their consent. <p>Risks related to the market</p> <ul style="list-style-type: none"> • Notes may have no established trading market when issued, and one may never develop. The Issuer has not any obligation to purchase the Notes from the Noteholders. However, should the Issuer decide to purchase the Notes, the secondary market pricing that the Issuer may provide on the Notes may reflect the unwinding cost of the hedging portfolio (if any). • Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes. • One or more independent credit rating agencies have assigned credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. • It is not possible to predict the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list or admit Notes to trading on a stock exchange or market. The Issuer, or any of its Affiliates may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private agreement. • The Issuer shall use all reasonable endeavours to maintain listing on the multilateral trading facility EuroTLX, provided that if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then the Issuer may apply to de-list the relevant Notes, although in this case it will use all reasonable endeavours to obtain and maintain (as soon as reasonably practicable after the relevant de-listing) an alternative equivalent admission to listing, trading and/or quotation by a stock exchange, market or quotation system within or outside the European Union, as it may decide. If such an alternative admission is not available or is, in the opinion of the relevant Issuer, impracticable or unduly burdensome, an alternative admission will not be obtained and the liquidity of the secondary market of the Notes could be affected.

WHY IS THIS PROSPECTUS BEING PRODUCED?
Use of proceeds: general corporate purpose of the Issuer Underwriting agreement on a firm commitment basis and portion of the Offer not covered by the agreement: not applicable Material interests in the offer: the following constitute material interests with respect to the issue and/or offer of Notes: the Issuer acts as Calculation Agent of the Notes. The Issuer is required to carry out its duties as Calculation Agent in good faith and using its reasonable judgment. Save as described above, so far as the Issuer is aware, no other person involved in the offer of the Notes has an interest material to the offer. The Distributor UniCredit S.p.A. may have a conflict of interest with respect to the offer of the notes because it will receive Distribution Fees from the Issuer in respect of the Aggregate Nominal Amount of the Notes effectively placed. Moreover, a conflict of interest may arise with respect to the offer of the Notes because the Dealer UniCredit Bank AG, acting through its Milan Branch: (a) belongs to the same banking group as the Distributor, (b) will operate as Liquidity Provider of the Notes on EuroTLX, (c) will act as Manager of the Placement Network, and in such capacity will earn Mandate Fees as specified in paragraph 10 of Part B of the Final Terms, and (d) will act, also through its head office, as hedging counterparty in the hedging agreement entered into by the Issuer in relation to the Notes.
